Subject: Areas of Concern Letter

Andrew and Kathy,

Attached is a letter formalizing the request that EPA made in September for Chemours to address the “areas of concern” that EPA had around the Washington Works facility. Also, we created some maps highlighting those areas. I know that Kathy drew circles around some of the areas but the maps should be a little more specific and helpful in your efforts in identifying residents that have been addressed or not. We will be sending out a hard copy to each of you next week with a disc containing the maps; we just wanted to give you the opportunity to look over the letter and the maps this morning before our meeting at 10:00. Please let Roger, Jenny, or I know if you have any questions.

Talk to you soon.
